

Dad's Column

SEND THEM TO BED WITH A KISS
O mothers, so weary, discouraged,
Worn out with the cares of the day,
You often grow cross and impatient
Complain of the noise and the play;
For the day brings so many vexations
So many things go amiss;
But, mothers, whatever may vex you,
Send the children to bed with a kiss.
The dear little feet wander often,
Perhaps from the pathway of right,
The dear little hands find new mischief
To try you from morning till night;
But think of the desolate mothers
Would give all the world for your bliss,
And, as thanks for your infinite blessings,
Send the children to bed with a kiss.
For some day their noise will not vex you,
The silence will hurt you far more;
You will long for their sweet childish voices,
For a sweet childish face at the door;
And to press a child's face to your bosom,
You'd give all the world for just this;
For the comfort 'twill bring you in sorrow,
Send the children to bed with a kiss.
—New Orleans Playhouse.

THE HIGH School Band of Carbon county did itself proud at the Century of Progress Exposition at Chicago last week. The large band won continued plaudits from press and public of the great city—and will return home laden down with honors. The organization is expected home today and Price has prepared a grand welcome for the members thereof. This exceptionally fine high school band is the first musical organization to win national honors this year.

WE READ in the papers that building construction rivaling the boom days of 1923 during the past two months has placed Long Beach, California, thirteenth in the nation and second on the Pacific coast in the value of building permits in March and April. The earthquake in that vicinity on March 10th last banished many of its economic ills. People forgot hard times routine in the zest to rebuild their city. Unemployment became far less of a problem and rebuilding at the rate of more than one million a month is proceeding.

AND BY the way, we further read in the papers, that Dr. Elliot Blackwelder, professor of geology, Stanford university, in a paper read in Salt Lake this week, predicted that earth disturbances would continue to occur along the coast of central and southern California, and that Utah is in the zone likely to suffer from major earth disturbances. The learned scientist advises that buildings in the future be constructed with this thought in mind. We, of Park City, need lose no sleep because of this "alarming" prediction.

DESPITE BITTER opposition and high power newspaper vocabulary on the part of O. W. Ewing, Utah's Democratic national committee man, back at Washington, D. C., our former townsman, Dan Ewing, will be the next U. S. district attorney for Utah. Federal political "plums" have been a bit slow in falling to the hungry Democratic office seekers of Utah, because of matters of far greater importance occupying the attention of the "powers that be" at the national capital. They will commence dropping very soon now, and Dan E. will "catch" one of the first and best.

THE BOOST in wages has commenced in some of the big concerns of the east, with increased employment in many sections. In this immediate vicinity we are still patiently awaiting the long delayed "S. S." (silver stabilization)—the one thing that will greatly increase employment and an increased scale of wages. It's coming—so don't despair. In the meantime the "bread line" will continue its semi-monthly "line up" in front of the local R. F. C. office.

"SPECULATIVELY SPEAKING" local mining stocks and the price of silver went "up the hill" the past week, giving us all much pleasure, and then they both came down again, causing us to censure.

WE DON'T have to go to England to hear King George speak, nor go to Washington, D. C., to hear Raunsey McDonald, when he visits this country—we are still contentedly sitting in the old arm-chair at home last Monday, properly adjusted the head set, turned on the radio, and heard both these notables as plain and distinct as if they had just dropped in at our home for a friendly chat. A marvelous old world we are living in these days.

WE ARE marching right along toward the repeal of prohibition. Massachusetts was the eleventh state to vote for repeal the past week. Utah will fall in line when given an opportunity.

THE U. S., in general, is thankful that an American, and a good one, too, won out in the race for the chairmanship of London monetary committee. James M. Cox, former governor of Ohio, is the man who will tackle the big international finance job. Silver will not be forgotten under the leadership of Mr. Cox—and good monetary news can be expected within the next thirty days or so. Senator Pittman is on the monetary job every minute at the international conference and working hand in hand with Chairman Cox.

CONGRESS ADJOURNED sine die at 1:21 this morning. Good. Now we will have less talk—with more direct action, with President Roosevelt the chief actor.

Robert McLaren Called

Last Friday night at a Salt Lake hospital, Robert McLaren, Jr., passed into his final sleep, after a several months illness. Because of the nature of his disease, liver trouble, no hope was held out for his recovery—and he suffered long and patiently, yet when the announcement of his death was received, it caused a wave of sorrow among his many Park City friends, for he was well known and esteemed and recognized as a man of sterling character, a devoted son, a loyal citizen, and a dependable friend.

Deceased was the son of E. H. McLaren, a citizen of this community known in almost every home, because of his always willing aid and helpfulness in hours of distress and sorrow. For over forty years he and his only son were constant and inseparable companions, and the passing on of his boy leaves his heart-stricken and alone. Sincere sympathy goes out to him in his sad bereavement.

Deceased was born in Hillard, Wyoming, on May 24, 1891. When a baby his parents moved to Park City. When about three years old, his mother died, and from that time on father and son were one, making their home together continuously in this city. Robert attended our public schools, and upon reaching Mr. McLaren's estate, he followed mining, and worked continuously at that work, until the depression closed most of the mines nearly three years ago—and "Bob" was one of the vast army of unemployed since then.

Of a quiet, retiring disposition, he was always cheerful and agreeable, and made friends with all whom he came in contact.

He was one of the first to enlist in Park City in the World's War, serving in the Fifty-eighth Infantry. It is thought his health was impaired during this service—for he never was as strong or as robust, after his return, as before the war. He was prominent in local Masonic circles, being past commander of Malta Commandery; held the high office of piano in the Royal Arch Chapter at the time of his death; a prominent member of Utah Council No. 1, Royal and Select Masters; always prominent in Blue Lodge work, holding the office of senior steward when stricken with his fatal illness.

How appropriate are the words of J. O. Holland:

"And when, in the evening of life, the golden clouds rest sweetly and invitingly upon the golden mountains, and the light of heaven streams down through the gathering mists of death, I wish you a peaceful and blessed entrance into that world of blessedness, where the great riddle of life will be unfolded to you in the quick consciousness of a soul redeemed and purified."

Impressive funeral services were held at Masonic Hall Tuesday afternoon, under the auspices of Utah Lodge, No. 7. The hall was filled to capacity with friends and admirers of deceased. Masonic ritualistic services were conducted by Worshipful Master H. A. Moore, assisted by the officers of the lodge. A vocal solo was rendered by Mrs. A. H. Hargreaves, accompanied by Mrs. Wilbur Langford, piano, and John Pike, violin; vocal quartet, Mrs. E. P. Deihl, Mrs. Fred Gillette, Mrs. Mae Raddon and Mrs. G. E. Sheen. The funeral sermon was given by Rev. J. H. Hayes, of St. Mary's Church, Provo. The reverend gentleman paid a high tribute to the deceased, of his high character and sterling worth as a man and citizen, and of his close association with deceased when a resident of this city.

A long cortege followed the remains to Glenwood cemetery, where in addition to the Masonic burial service, full military honors were given the deceased under the auspices of the local Post of American Legion, who attended the services in a body—a firing squad from Fort Douglas, and a bugler, participating in the last sad rites—the color bearer being Victor Peterson, color guard, Ernest Lange and Vern Gibson, with Adjutant W. J. Bardsley, acting as chaplain.

The pall bearers were Robert E. Cunningham, Melvin Brown, Wm. E. Mawhinney, Melvin Kidder, J. W. Buck and W. H. Dunn. A. R. Hauslein, Rex Wheelwright, E. A. Hewitt, Keith Buck, R. E. Bailey, R. P. Deihl, of Malta Commandery, acted as guard of honor, in full uniform.

CARD OF THANKS
To the neighbors and friends I wish to tender my heartfelt thanks for their kindness and assistance during the illness and after the death of my beloved son, Robert. Words cannot convey my appreciation of their many acts of kindness and words of sympathy.
Very gratefully,
ROBERT H. McLAREN.

Police Court Items

Albert Smith, arrested by Officer Thomas, charged with intoxication and disturbance, June 9th, on Main street, pleaded guilty and was sentenced to 15 days in jail.

Christian Ballard, a member of the forest camp at Kamas, was arrested and committed to jail on charge of intoxication and disturbance by Officer McGarry last Saturday, when he was creating a disturbance on Main street. Ballard was held in jail until Monday when he was released to government officials for further discipline.

Albert Carlson was arrested Saturday night by Marshall McGarry. A charge of drunkenness was placed against him. Carlson to pay his fine. Carlson received a 15 day jail sentence.

Chas. Lipponen and John Johnson were arrested by Officers Thomas, charged with intoxication, when they were taken out of an auto on Main street Monday night. The two defendants entered pleas of guilty, and went to work on the water line for Park City for 15 days.

Lawrence Hendrickson was arrested by Officer Thomas Monday night when he was taken out of the car he was attempting to drive while in a drunken condition. Hendrickson had driven his car into a fire station while attempting to make a turn. He received a sentence of \$100.00 or 100 days, for operating a vehicle while in a drunken condition.

Wadda E. Schultz and Elmer W. Wilcox were arrested by Officer McGarry for peddling potato-chips in the city without any license. This was the first appearance

American Legion Doings

The Frank E. Peterson Post No. 14, American Legion, held its regular meeting at the Athenaeum Hall Tuesday, June 13th. The members of the Post had a lengthy discussion of the question of veteran's employment and called the attention of the members to the fact that in many lines of endeavor that by law the veteran is to be given preference for the job when, and if, other things are equal. The Post wishes to emphasize the necessity of the veteran, when applying for employment, he should make his status as a veteran known. This is especially important in road construction where large sums of government money is being spent. The veterans are all now becoming middle-aged and old men, and in seeking employment, they must make themselves known, otherwise they will be passed up and forgotten. The Post also discussed the question of Independence Day observance, and Commander Thomas E. Clark appointed a number of committees to make the necessary arrangements; interview the city dads, the business houses, and the mining companies, with a view of raising sufficient funds to erect a worthy celebration and to entertain the kiddies of the community. The local Post also participated with the Masons in the funeral ceremonies of our deceased comrade, Robert Conway McLaren. A firing squad and bugler came from Fort Douglas, and a color guard, under the supervision of Ernest Lange and Dr. W. J. Bardsley, acting as chaplain. The entire ceremonies of the Masons and the American Legion was beautiful and impressive.

Congress has adjourned and the country will now breathe the sigh of relief. The ex-service man has been the principal sacrificial offering on the altar of economy. The American Legion has supported President Roosevelt in most of his efforts for economy. It has and will assist him in correction many an abuse which has crept into the affairs of the veteran's administration. Many an unjust claim should and will be disallowed, but at the same time the Legion will be especially vigilant to see that no ex-service man shall be denied the rights which are justly his, in spite of all the efforts of the so-called National Economy League. The league succeeded in having the veteran's affairs placed in the lap of the president. It is President Roosevelt's baby, and now, he is having trouble with Congress and especially with the senate over the care of the child.

Under the new regulations of the economy program many benefits heretofore enjoyed by the veterans will be discontinued. Hospitalization for non-service connected disabilities will be discontinued, transportation will not be furnished for purpose of examination or for soldier home care. To be entitled to World War pension the veteran must have served in the active military or naval forces between April 6, 1917, and November 11, 1918; now suffering to a disabling degree from some disease or injury incurred in or aggravated by service prior to July 2, 1921; in line of duty, not the result of his own misconduct; and have been honorably discharged from such service.

W. J. BARDSLEY, Adjutant.

Stroller Notices

That it is Father's Day next Sunday.
That speaking of fathers Shakespeare once remarked:
"Fathers that wear rags do make their children blind."
That the price of silver is still having its ups and downs.
That that has been the case with local mining stocks the past week.
That "prosperity" has been jarred loose from "around the corner," but it has not yet got started in this direction.
That there is no doubt but what it will center this way sooner or later.
That we hope it will arrive before we are beckoned to "cross the river."
That these are vacation days for those who can afford it.
That the Fourth of July is only three weeks from next Tuesday.
That the question is often asked: "What is Park City going to do about it?"
That it is a certainty there will be no elaborate celebration—but the kiddies of the city must not be forgotten.

That Joe Bruner is the caretaker of the federal grounds during the absence of Howard Coleman.

That Joe has done "pretty work" the past week.

That the fishing season opened Thursday morning—with fishermen galore—and "luck" very poor.

That one of the many fishermen was heard to remark: "Mister, I marvel how the fishes live in the sea and mountain streams?"

That he was answered: "Why, as men do on land; the great ones eat up the little ones."

That there has not been heat prostrations—yet during the day we have an "elegant sufficiency" of warmth.

of these "merchants" in Park City. They were representing the Glats Potato Chip company, of Salt Lake. They were obliged to take out a license for three months before securing their release.

District Court Convenes

District court was held in Coalville Monday and Tuesday of this week. The only case of interest to Parkites, was the case Mount Masonic vs. Silver King Coalition. The case was dismissed Monday, but reinstated Tuesday, because of a compromise being agreed upon. The case was continued to allow time to complete details of the compromise. J. B. Hogan, of Salt Lake, and J. E. Johnson, of Park City, are the King Coalition's attorneys.

Mining Matters

PARK STANDARD DIRECTORS TO MEET

A meeting of the board of directors of the Park Standard Mining company, is called for tomorrow, Saturday, afternoon in Salt Lake City. When in all probability another assessment will be levied to continue work on the promising prospect on the east side.

MUST PAY UP BY JULY FIRST

The following notice was sent to stockholders of the Star of Utah Mining company, Mayflower Mines Corporation and Park Galena Mining company, the past week.

All shareholders in the above mentioned companies are hereby notified that the right of New Park Mining company by turning in their old stock and making payment to the New Park Mining company's treasury of ten cents per share for the new stock is terminated to take effect July 2, 1933.

By reason of a resolution passed by the Board of Directors of the New Park Mining company, any stock of the Star of Utah Mining company, Mayflower Mines Corporation or Park Galena Mining company that has not been received at the office of the New Park Mining company, 621 Newhouse Building, Salt Lake City, Utah, on or before the 3rd day of July, 1933, together with a payment to apply on the conversion thereof into stock of the New Park Mining company forfeits the right to thereafter be converted or transferred into shares of the New Park Mining company.

NEW PARK MINING COMPANY,
J. P. Featherstone, Secretary.
Dated June 5, 1933.

In the opinion of The Record those who fail to convert their old stock for stock in the New Park company, will regret it, particularly if the "white metal" is stabilized—which seems quite probable at this time.

NEW PARK MINE ISSUES REPORT

During the past year, the New Park Mining company, formerly the Star of Utah, received income from transfer fees, etc., amounting to a total of \$102,522.41, according to a report of the executive committee, which is being mailed to stockholders, says a report recently sent out to stockholders.

In addition, the company secured the cancellation of an additional \$15 indebtedness by releasing the Columbus group of claims adjoining the Park City property. A statement of the company as of May 1, 1933 shows current assets of \$81,797.59, and current liabilities of \$2,671.88.

The executive committee released the following report:
About year ago the Star of Utah Mining company, Mayflower Mines Corporation and the Park Galena Mining company were consolidated into one company, known as the New Park Mining company. This was accomplished at meetings held for that purpose and was approved by a large majority of the stockholders of the three companies. The plan recommended and approved to provide funds with which to liquidate outstanding obligations provided that a charge of 10 cents a share on each share of stock issued in the New Park Mining company be made.

During the past year the company's income from transfer fees, etc., amounted to a total of \$102,522.41, most of which sum has been applied on the company's debts. By releasing our rights in the Columbus group of claims the company secured the cancellation of an additional \$15,000.00 of indebtedness. The total indebtedness is now reduced to \$84,648.29. Part of this sum or a total of \$37,726.41 has been refunded by the issuance of certificates of indebtedness payable out of future ore shipments. This leaves a mortgage of \$24,250.00 in favor of one of the smelting companies and only \$22,671.88 in current accounts and notes yet to be met. There is cash on hand and due on transfer fees already promised the sum of \$31,797.59 or within \$14,234.29 of enough money when it comes in to meet the company's obligations. There is approximately 2,500,000 shares of stock remaining in the treasury to take care of these liabilities, start shipments and pay for future development work. The assets of the corporation represent a value of \$1.34 per share on stock issued.

At the Star of Utah end of the property a tunnel penetrates Bald Mountain for a distance of 8,300 feet. In cross-cut of 3,000 feet the Star tunnel there are exposed three different mineral vein systems which should soon develop into ore bodies of the size and value necessary for profitable production.

In the Mayflower ground 600 feet lower down on the mountain side a tunnel 3500 feet has been driven to intersect the Mayflower fissure system. This intersection has been reached and some work done along the vein toward the proven ore formerly opened in Mayflower ground and there is now showing in the face of this tunnel the character of ore and mineralization that is readily identified as the richest strikes ever made in the Park City district. This tunnel should also cut the ore 800 feet below the bottom level in the Park Galena ground which sandwiches in between the Star of Utah and Mayflower.

The Park Galena workings consist of a tunnel 2,500 feet in length and a shaft has been sunk to a depth of 280 feet from this tunnel level. From these workings there has been shipped by the Park Galena Mining company ore amounting to \$147,501.99.

Silver slipped another 1/4c to 35 1/2; lead, 4.13; copper, 7.65.

Park 9---Coalville 4

In the game last Sunday with Coalville, the Park City club supplied a brand of base ball that would do credit to a major league team. The game was featured with five stolen bases, four walks, three sacrifice hits, and two squeeze plays that resulted in scores of home runs. Park City secured twelve hits off Penny Baker, the Coalville hurler, while the boys from Coalville were held to nine hits which were kept widely scattered by Jackson and Giacomo. Olsen who has been placed in cleanup position enjoyed a field day, securing two doubles and two singles during the day. Only one error was charged to Park City, while Coalville made five.

Next Sunday the local club will cross bats with the Kamas team on the home grounds. Kamas is one of the strongest teams in the bi-county league, having only dropped one game out of six since the season started on May 10th. This team will give Park City a splendid game. On July Fourth, the Park City team will play the leaders of the league, or the team that enjoys the highest rating at the close of the first half of the season. At the present time it appears that Park City will have to take their chances against the unbeatable from Milton, in Morgan county. This team has not lost a game in the league to date, and have made a record of playing six games with only one error.

J. G., Jr.

Community Church

Sunday School, 10:00 a. m. Preaching 11:00 a. m. This is the only services for the coming Sunday. I have been assigned to Helen, New Mexico and Sunday morning services will be my last service for Park City so all who care to may attend the preaching hour.

I am deeply grateful to all our friends for their many kindnesses to us these three years. My successor will be appointed at the Colorado conference next week. I hope the people will co-operate to the limit with whoever comes here in order that the Community Church can carry on. Whether the members of the church will pay for this month of June must be in hands before business closes Saturday evening as we leave Sunday afternoon. Remember the deficit of the year just closed is wiped from the slate and only what is to be paid me on this month will be accepted. Best wishes for all, and here's hoping Park City will soon be back to normal financial conditions. And now farewell friends.
D. A. GREGG.

State Band Clinic

The "All State Band Clinic" convened at Logan Thursday morning, with Prof. A. R. McCallister, of Juliette, Minn., in charge. The following members of the P. C. H. S. band, left Wednesday to participate in the three weeks meeting and instruction: Annabelle Hewitt, Floris Springer, Betty Vaylor, Joe Cunningham, Max Wiley, Virgil Mills, LeMar Hoover and Wayne Booth.

Fifty-six members of the Coalville high school band registered for the three weeks meet.

The concert band will consist of 250 pieces and will be instructed and directed by Professor McCallister. There will be a marching band of 150 pieces, which will be under the direction of a son of Prof. McCallister. The Park City delegation will take part in both. Miss Annabelle Hewitt will take a special course in drum major work—as she will be the next drum major of the P. C. H. S. band.

The final concert of this all state band clinic will be given at Liberty Park, Salt Lake City, on Sunday, July 2nd—which will be heard by a vast throng of people from all over the state.

Leader Byron Jones of our home band will spend a few days each week at Logan to observe the progress of the work.

Mines and Scenery

In the scenic section of the Salt Lake Tribune last Sunday, appeared the following regarding Park City:

"Park City, famous mining camp near the summit of beautiful Farley's canyon is immediately associated with the development of the west, and is one of the outstanding scenic attractions of the country, and is also famous be-

4-H Club News

THE MODERN FRISCELLAS

The Modern Friscella's met at the home of their leader, Mrs. Sumner Nelson Thursday at 2 p. m. On account of our reporter moving away for the summer the club elected Margaret Feldan to take her place. Mrs. Gregg, our former leader is leaving us so we have chosen Mrs. Sumner Nelson for our leader and have chosen a new name. We are all working hard on our slips and hope to finish them in a few weeks. Next meeting will be held at the home of our leader next Thursday at 1 p. m.
MARGARET FELDAN, Reporter.

WILLING WORKERS

At the last three meetings of the Willing Workers we have been very busy working on hot washers and a patch and a darn. Most of the work has been handed in and our efforts were rewarded by our leader arranging a wienie roast at Nigger Hollow. We also had marsh-mallows, buns, and punch. We returned very much sun-burned, freckled, tired and sore, but not counting these drawbacks we had a very enjoyable time. We have two new members in our club. They are June Blackley and Patricia Louder. You have not heard from our club the past two weeks, because the reporter has been on a vacation.
BETH DAVIS, Reporter.

BETTER HOME MAKERS

The Better Home Makers club met Thursday afternoon at the home of Mrs. Clarypool and worked on their house dresses. We planned an all day hike to Brighton. Some of the girls were worried for fear their alarm clocks wouldn't ring at 5:30 a. m. But we're sure they'll all get up on time. We're taking our lunch and after we eat we're going to have our lesson on "Feet and Shoes." Probably after eight miles of walking the girls who wear slippers a size or so small on account of looks will take heed and have slippers that fit next time.
ELEANOR MEANEY, Reporter.

RITA CLUB

The 4-H club had a meeting Monday afternoon at the home of Mrs. Brooks. On Tuesday afternoon the Rita club enjoyed a picnic at the swimming hole. Had lunch, and returned home in the evening.
Wednesday afternoon the club met at Mrs. Brooks' home, having as their guests Miss Huber and Miss Betty Bogan. After completing the patches and hearing a very interesting talk by Miss Huber the meeting was adjourned.

LUCKY LASSIES

The Lucky Lassie 4-H club met at Mrs. Remunds on June 13th. Miss Huber met with us in order to discuss our complete costumes, which we are required to make this year. Miss Brown, who was our visitor from Idaho, gave us some very good suggestions on this subject. Most of the girls decided to make afternoon or sport dresses, but one girl is going to make an outfit for her year-old baby sister, and another is going to make an evening dress.
We will all have our notebooks completed by our next meeting and our good work will be rewarded by a trip to the Hot Pots on June 23rd. We have decided to invite the 4-H club from Marion, and also Miss Huber to go with us. We know we will all have a grand time.
RUTH McQUARRIE, Reporter.

cause of its tremendous output of the white metal.

Because of the current action for stabilizing silver, in line with the federal program of money expansion, the community has taken on a renewed importance, both from economic and scenic standpoints.

Situated high in the rugged Rockies, Park City's main street winds up into the mountain fastness. Its main street has retained much of the pioneer flavor of the west and its hospitable people co-operate to make the visitor's stay pleasant and interesting.

A major feature of the camp is the famed Silver King Coalition Mines property, from which place came a splendid flow of surrounding scenery. The Silver King is only one of the mining properties there; the mountains for miles around being cut by tunnels, with shafts leading far into the earth where the valuable ore has been stored by Mother Nature."

I. O. O. F. Memorial

Park City Lodge, No. 7, and Rebecca Lodge, I. O. O. F., held memorial services in I. O. O. F. hall Tuesday night. A large attendance was present, and the services were both impressive and interesting. Leslie Roach, presided. The following program was given: March, Miss Bernice Clark; opening address, Leslie Roach; flow of song, Miss Blanche Dunbar; invocation, Mrs. Margaret Dunbar; solo, Mrs. J. Sullivan, accompanied by Miss Bernice Clark; noble grand's charge, Miss Esther Dunbar; cornet solo, Glenn Sanger, accompanied by Miss Ruth Sanger; vice grand's charge, Miss Mildred Tuggle; vocal solo, Wilbur Brooks, accompanied by Miss Bernice Clark; past grand's charge, Mrs. Fannie Louder; secretary's obituaries, Leslie Roach and Mrs. Esther Oiska; closing remarks, Noble Grand, Mrs. Esther Dunbar; benediction, Mrs. Margaret Dunbar.
